SPANISH VERBODOKU

INTRODUCTION

These fun Spanish Verbodoku puzzles are designed to provide an alternative and fun way to test yourself or your students on the conjugation of Spanish verbs.

These puzzles cover the present tense conjugation of regular and irregular verbs, to provide a fun test or homework following a tough grammar lesson.

Based on the concept of the popular Sudoku puzzles, each puzzle can be completed by ensuring that each row, column and region contains each conjugation of the verb. Each verb combination covers three pages as follows:

A) Puzzle including the conjugations

An easier version: provides the student with everything they need to complete the puzzle

B) Puzzle without the conjugations

A more difficult version: encourages the student to refer to class notes to find the conjugations or simply use their own knowledge

C) Answers to the puzzle

These three sections are provided on separate pages so that you can choose the difficulty level of the puzzle (for yourself or your students) and you can decide when to look at the answers!
